

## ERRORS

I try to solve all the errors many times..But I am unable to solve them. Mostly errors because Queries are not working properly. I put the comments where I am getting the error. Please have a look and solve them. I got frustrated to solve them again and again.

1)-> I am unable to display the images on the location in the files.

*a. frontend/list\_pages.php*

*b. modules/allDeliveryBoy.php*

*c. modules/allUser.php*

*d. modules/allAdmin.php*

*e. modules/allRestaurant.php*

2)-> Queries are not working properly.

**a.Insert Query**

*1. addUser.php*

*2. updateAdmin.php*

*3. addMenu.php*

*4. addMenuCSV.php*

**b.Update Query**

*1. updateMenuFood.php*

**c. Delete Query**

*1. deleteMenuFood.php*

#### d. Select Query

##### ***1. addAdmin.php***

3)->I put true conditions in the if statements but they are not giving desired results

##### ***a. updateUser.php***

##### ***b. addRestaurant.php***

##### ***c. updateRestaurant.php***

If you successfully solve them then, please mention in the comment How u solve them or Where I was wrong It help me to learn.

Thanks .....
